

## Squashblossom

A Native American medicine woman, Squashblossom, lives on the desert in the southwestern region of the country. Her truest friends are the animals, the plants, the sun, the moon and an old sidewinder named Desert Dan. She's at peace with herself. Her energies are in tune with the earth and the natural elements. Gus and Ocean Rudee's first encounter with Squashblossom was one they'll never forget. Her occasional visits to the Lighthouse keep Ocean Rudee in touch with things 'above and beyond the sea'. Even though they are miles and life-styles apart their friendship has maintained a strong and steady course since its first beginnings.
