Call to Action

This initiative was not created by a single person with a solitary idea about one program. Reading, literacy, laughter, positivity, inclusiveness, compassion, imagination, caring, creativity - these are all individual pieces of a much larger Ocean Rudee concept. Collaboration has been vital from the beginning and it will continue to be so as each new chapter unfolds.

As 'Ocean Rudee & Company' enthusiasts, we have a substantial role to play from this point forward. Every e-mail we send, each conversation we have, the phone calls we make, the ideas we share and the recommendations we offer - will have a direct and cumulative effect upon our success.

My goal is to touch as many young people's hearts and minds as possible with this program. Your continued interest, involvement and ongoing support are, as always, *very much appreciated*.

Best Regards,

Paul Ennis
